PRESIDENT'S MESSAGE

Hello Tin Lizzies! Well, we're off to a flying start! I want to start by thanking all of you who attended and participated in January's meeting last week. The first meeting of the year is almost always a longer one than usual, with all the beginning-of-the-year business that needs to be attended to, but I think that we can soon get down to the real "business" that we enjoy, of dealing with our cars and putting this cold weather behind us. Once again, I want to beat the drum for ideas for meeting programs. For those of you not at the meeting, our three directors (listed elsewhere in the newsletter) are in charge of twisting arms and putting together short, informative, and, hopefully, entertaining programs for each meeting. But they need your ideas and participation! If something interesting has come to your attention - a topic, a video, etc. - please step forward and either present your idea to a director, or, better yet, put together a program yourself, let us know, and we can include it in the agenda sometime in the coming months. Remember, this is YOUR club and you will - All Together Now! - get out of it only what YOU PUT IN!! Looking forward to seeing you all at our next breakfast on February 11th. Thank you, Rose, for hosting February's Restoration Tip: No two identical parts are alike!!

Vaughn

Because we have so many new members and in an effort to learn everyone's name, those of you who have a name badge **PLEASE** wear them on a regular basis to our meetings, breakfast, any "club function". If you would like to have a Tin Lizzies name badge, please let me know how you want your name to appear and if you would like a pin back or a magnet back and send your information to lmrlubell@juno.com or call Linda @ 505 459 5897. I will be submitting the order by 2/8.

Also, to get familiar with our member's cars, join our "wall of fame" and provide a picture (3 x 5 or 4 x 6) of your car (with or without you). These will be adhered to a poster board to have on display during our meetings.

For the past several years, we have had at least one Model T on display at Rich Ford in their showroom while the rest of the Tin Lizzies are in the parking lot to help celebrate their anniversary. Since this is 2017, I have arranged to have two 1917 Model T's on display. Also, let me know by February 28 if you plan on participating. This way they can have ample parking for us all. **PLEASE NOTE:** The wrong day was posted in the last newsletter for Rich Ford. It is Sunday, but its the 5th. We will meeting at 10:00, but the Mustang Café will not be open. They will however have hot dogs & soda, Papa Murphy's pizza and Wendy's Chili. Contact Linda @ 505 459 5897.

This is what it's all about....getting a younger generation involved (work party 1.7.2017)

In the Beginning.....

Henry Ford's incredible story began in a small 3 story building on the corner of Piquette & Beaubien Avenues in Detroit. Today the building is virtually forgotten. In 1904 when Henry constructed it (\$76,500) he was beginning to make worldwide automotive history.

Here he designed & produced a series of cars that achieved wide acclaim but were dwarfed by the development of the Model T.

In January 1907 a modest 12 x 15 ft room was his "experimental room" where he was able to realize his dream of designing a car that was affordable to the average auto industry worker.

Henry had his favorite craftsmen move equipment and a blackboard into this room and as he sat in his mother's rocking chair, he looked over the drawings while making comments and suggestions.

The initial development phase lasted about 10 months and by October 1907 the first 2 prototype Model T's were built. During the next year, designs continued to be refined and production of the existing Ford models was phased out and the first production Model T was built on September 27, 1908. Even though 11 T's were built in October and early production seemed no more than a trickle, December produced 200 cars.

As the production of T's climbed, it became apparent that the Piquette factory could no longer meet demand (12,000 total built including the very first T) so by the end of 1909 a new factory in Highland Park was ready and production was transferred by January 1910.

In 1914 over 300,000 Model T's were produced (more than the other 299 auto makers combined) and by 1927 when production ceased at Highland Park over 15 million T's were produced (a record that lasted nearly 6 decades).

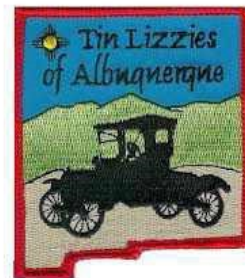

All of this can be attributed to the car that evolved from a small "experimental room" on the corner of Piquette and Beaubien Avenues. The importance of this facility has since been appreciated within Detroit's historic preservation community and automotive historians. However, worldwide recognition to the importance of this simple building in 20th century American history is most certainly long overdue.

Do you have a passion for real old cars? Do you like to collect pictures, models, advertisements, parts or just like to talk about old cars? If so, come visit the Horseless Carriage Club of America HCCA—Albuquerque Chapter on the 4th Tuesday of each month 7 pm at Ortega's located @ 3671 Wyoming NE. Garage Gossip.....If Guys Possessed a Shopping Gene

While puttering in my shop the other day I began to wonder: What if I had the same drive to shop that all women (especially my lovely spouse) have? What would life be like? Well here goes

Me(on the phone to my buddy): " Hi Jim, what's new?"

Jim: "Oh man, I was reading the Sunday ads and noticed that Snap On is having a BIG sale, everything is 40% off!"

Me: "Wow, a new Snap On red toolbox would go great with my red Mustang! Also, Joe was telling me that Snap On now has nickel plated box-end wrenches, a set of those would match the nickel plating on my 26 Model T!"

Jim: " Yeah, but I thought that the same finish on hand tools and your car is no longer fashionable, at least the last tool show at the Convention Center did not have any models displaying that combo."

Me: "No, really? That would sure mess up my car and tool combos! "

Jim: "I'm getting a little tired of my shop layout, I know that you rearranged all your machine tools recently. What did you do to get your spouse to help with the rearrangement?"

Me: "No sweat, I just had to promise to cook for a month."

Jim: "Well, how about going shopping?"

Me: "I'll meet you at Pep Boys and we can get warmed up"

Possible ideas include: Estate planning, Security for cars and trailers: have you painted the top of your trailer? With your car on or off the trailer.

After-breakfast events, if there is an activity/business we all could attend after breakfast that would be great to attend as a club.
