If you would like to have a Tin Lizzies name badge, please let me know how you want your name to appear and if you would like a pin back or a magnet back and send your information to [lmrlulubell@juno.com](mailto:lmrlulubell@juno.com) or call Linda @ 505 459 5897.

## PRESIDENT'S MESSAGE

Hello Tin Lizzies!

Well, the summer and all it's heated splendor is upon us. Storms are starting to roll in and humidity is on the rise! But do we care?? Heck No! We're just glad we don't live in Phoenix!

But seriously folks, it is warming up out there, so when you're out in the Model T, just be careful to carry water and anything else you might need in case of a breakdown.

It's been an active month, with breakfast at the Vineyard, the tour to Jemez Springs, a visit to La Veda Llena, and a workday at the Azevedo's. Thanks to everyone who attended each event. We have an active club here in Albuquerque and we want to keep it that way, so, everyone, don't be afraid to step up and plan a day tour, an "ice cream afternoon," or anything else that you think the club would enjoy. It's all good.

I obviously have nothing to say here, so I'll just close with a question: What did the whale say after he swam into the concrete wall?

Dam!!

Sorry, see yall soon.

Vaughn, GHMM

## UP COMING EVENTS.....

July 27 -Tin Lizzies Pizza Party

August 19 - Rich Ford Edgewood

August 26 - Ladies take apart car practice

September 3 - Ladies take apart car practice

September 10 - Ford Day at the New Mexico State Fair

September 28 thru October 1, 2017 - Enchanted Loop Tour. (see page 6 for more information)

October - Balloon Fiesta

From you Editor: In an effort to fill up the pages in the remaining Enchanted Flyers, I want to hear from you....

What does the Tin Lizzies mean to you?  
What is the story behind your first Model T?  
Who taught you to drive a Model T?

In a couple of sentences or so, explain your answers and send them via email or write out your answers and give them to me at any of our meetings or a breakfast.

thanks,  
Linda

## Enchanted Loop Tour: September 28 thru October 1, 2017

We will travel to Red River on Thursday, September 28 and check in at the Riverside Lodge in Red River (unless you are taking an RV). We will be touring on Friday & Saturday and will return home on Sunday, October 1. You need to make your reservation for 3 nights starting on Thursday, September 28.

Here is the lodge information:

Call 1 800 432 9999 for reservations. We are receiving the low seasonal rates and there are several options for lodge rooms including 2 person units, 3, 4, etc.

When you call to make your reservation, you can pick and choose what you want. Two person units 2C, 8C, 9C, 21C - 27C, 24C and 30C range in price from \$70 to \$89 per night. Four person units 10C, 11C, 3C, 4C - 7C, 12C - 19C range in price from \$86 to \$118 per night. Five person units 25C, 29C, 31C and 23C are \$128 and six 6 person units 22C, 23C, 29C and 31C are \$138 per night. Lodge rooms 1L through 8L range from \$63 to \$89 per night and the Aspen Suites 14A through 16A range from \$102 to \$121 per night.

We will be able to park our trailers just north of Independence Street in a public lot, a short walk from the lodge. No pets are allowed and all the rooms are non-smoking. Smoking is allowed on balconies outside.

Don't forget to mention the you are with the Tin Lizzies when you make your reservation. You will be required to make a deposit either by check or credit card for two nights. For more information about the lodge in Red River click on this link: <http://www.redriver-nm.com>

Once you have made your reservation, please let me know by email at [dribblebit@comcast.net](mailto:dribblebit@comcast.net) so I can keep track of how many people will be on the tour. In your email note the room you have reserved. Also, let me know if you are taking an RV and not making a room reservation.

### A NOTE OF THANKS:

Tin Lizzies,

Again, thanks to all who participated in the completion of the restoration of the roadster! By my count we had 15 work days and 29 tin Lizzies involved! Vern & Betty Houston are really appreciative. Lorna & I returned the roadster to Socorro on Monday and also met Frank Lewark at the Houston's home. The Houston's have donated \$500 to the Tin Lizzies in appreciation of all your work! We have a great club!

Larry

### ANOTHER NOTE OF THANKS:

To Vern & Betty Houston, on behalf of your fellow tin lizzies family for your generous donation. Try and make it for the July meeting to partake in a pizza party,

You are cordially invited to the Tin Lizzies Pizza Party to be held on July 27 @7:00 pm.

There will be pizza, salad and drinks.

Kindly RSVP to me by Sunday July 23 so that I can make sure to order enough pizza for everyone.

My name is David O'Dowd and I live in Cedar Crest. I have an unusual antique made about 1938 by a man named Roscoe Garriss of Knob Hill, NC. It is a very large 53.5" x 24.25" Model TT Truck made of Oak. The steering wheel turns the front wheels and the tail gate opens and closes. I often run across unusual items and this one is spectacular! found this in Pennsylvania and would like to sell it. Perhaps your club members would be interested. I would take \$2,500 for a quick sale. I have attached a picture here for you and I can take more if you like. David (505) 407-2006 Cedar Crest, NM

Do you have a passion for real old cars? Do you like to collect pictures, models, advertisements, parts or just like to talk about old cars? If so, come visit the Horseless Carriage Club of America HCCA—Albuquerque Chapter on the 4th Tuesday of each month 7 pm at Ortega's located @ 3671 Wyoming NE. Call John Hayne 505 294 4434 for more information.

# UNITED STATES PATENT OFFICE.

PAGE LIVELY, OF PHOENIX, ARIZONA, AND RAYMOND J. STEIL, OF LOS ANGELES, CALIFORNIA.

## DEMOUNTABLE WHEEL.

1,361,076.

Specification of Letters Patent.

Patented Dec. 7, 1920.

Application filed December 2, 1918. Serial No. 285,150.

*To all whom it may concern:*

Be it known that we, PAGE LIVELY, a citizen of the United States, residing at Phoenix, in the county of Maricopa and State of Arizona, and RAYMOND J. STEIL, a citizen of the United States, residing at Los Angeles, in the county of Los Angeles and State of California, have invented a new and useful Demountable Wheel, of which the following is a specification.

This invention aims to provide novel means whereby, by adding a few parts to the wheel equipment of a Ford car, such a wheel may be made demountable and interchangeable at the will of an operator.

It is within the province of the disclosure to improve generally and to enhance the utility of devices of that type to which the present invention appertains.

With the above and other objects in view, which will appear as the description proceeds, the invention resides in the combination and arrangement of parts and in the details of construction hereinafter described and claimed, it being understood that, within the scope of what is claimed, changes in the precise embodiment of the invention shown can be made without departing from the spirit of the invention.

In the accompanying drawings:—

Figure 1 shows in section, a device constructed in accordance with the invention; Fig. 2 is a rear elevation of the back disk; Fig. 3 is a cross section of the back disk; Fig. 4 is a sectional detail showing a part of the wheel; Fig. 5 is front elevation of the structure delineated in Fig. 1.

The numeral 1 marks a hub having a flange 2, the hub 1 carrying a hub cap 3. An outer hub plate 4 is shown, the flange 2 and the outer hub plate 4 constituting means for holding the spokes 5 in place, in the regular equipment of a Ford car.

In carrying out the present invention, there is provided a back disk 6 which abuts against the rear face of the flange 2 on the hub 1, the back disk having polygonal openings 7. The numeral 8 marks studs or bolts, constituting securing devices, the studs having polygonal heads 9 held against rotation in the openings 7 of the back disk 6, the studs projecting removably through the flange 2. Collars 10 are threaded on the studs 8, the collars engaging the forward face of the flange 2. In this way, the studs

8 are held on the flange 2, in outstanding relation with respect thereto.

The numeral 11 marks an inner hub plate having a sleeve 12 against which the inner ends of the spokes 5 abut. Screws 14 or like securing devices connect the outer plate 4 and the inner hub plate 11, and thus, a demountable wheel is provided.

The demountable wheel above defined may be slipped upon the hub 1, the hub 1 being received within the sleeve 12 of the inner hub plate 4, the studs passing through openings 16 in the spokes 5 and in the outer hub plate 4, the collars 10 being received in openings 17 fashioned in the inner hub plate 11. Cap nuts 15 are threaded on the outer ends of the studs 8 and engage the outer hub plate 4, the inner hub plate 11 abutting against the flange 2, and the demountable wheel in this way being held on the hub 1.

From the foregoing, it will be noted that a simple means is provided, whereby, through the addition of a few elements to a common Ford wheel equipment, a demountable wheel may be provided.

Having thus described the invention, what is claimed is:—

In a device of the class described, a hub having a flange; a back disk cooperating with the rear face of the flange and having polygonal openings; an inner plate cooperating with the outer face of the flange, the inner plate having openings, and being provided with a sleeve receiving the hub; an outer plate receiving the hub; spokes between the plates and abutting against the sleeve; studs passing through the flange, through the openings of the inner plate and through the outer plate, the studs having heads received against rotation in the openings of the back disk; collars threaded on the studs and received in the openings of the inner plate, the studs cooperating with the flange and being held against rotation by the spokes; and securing devices on the studs, the securing devices, engaging the outer plate.

In testimony that we claim the foregoing as our own, we have hereto affixed our signatures in the presence of two witnesses.
